1. Introduction

- **Logo Meaning:**

- **Gold Line:** Represents coins or wealth.
- **Two White Lines (inside):** Symbolizes a protective barrier.
- **Green Circle (center):** Represents an existing cell.
- **White Circle within Green (center):** Signifies the injection of white stem cells to form new green cells, symbolizing regeneration.
- **Light Green Background:** Reflects new life, symbolizing growth and renewal, much like a sprouting plant or the fresh green of new leaves.

- **Luisa Group (LSA)** was developed as a blockchain-based payment system to support overall medical recreation projects linked to the human health.
- The **main business** of the Luisa Group consists of a combination of a medical business using stem cells, a healing center business for patients, and a sports activities for patients' health.

The Luisa Group was founded in 2025 to create an inclusive, innovation-driven ecosystem that integrates advanced stem cell therapies, lifestyle-based wellness tourism, and blockchain technology. Our mission is to democratize access to regenerative healthcare while promoting healthy living and digital financial inclusion.

The Luisa Group, the nonprofit arm registered in Japan, spearheads this vision by providing free stem cell treatments to marginalized communities. Guided by the belief that healthcare is a fundamental human right, Luisa Group leverages modern innovations particularly stem cell research and blockchain technology to address deep-rooted health and social inequities.

Beyond healthcare, Luisa Group actively promotes Korean culture, products, and cuisine, which will be introduced to the Philippines through the Luisa Store, creating a bridge between innovation, culture, and community empowerment.

- 10% - Board of Directors (Democratic Board from 5 different countries over 10 members)
- 25% - Pre-sale/ IEO (1st distribution quantity)
- 15% - Founder, Contributor, Partner, etc.

Safety and Investment Potential of LSA Tokens

Unlike many tokens that rely solely on speculation, LSA Token is backed by a real ecosystem the Luisa Group's healthcare, wellness, and leisure services. This ensures stability and long-term growth compared to companies that launch tokens without tangible foundations.

Key Strengths:

- **Real-World Utility:** LSA tokens can be used for healthcare services, stem cell therapy, wellness programs, medical tourism, and discounted bookings creating continuous demand.
- **Sustainable Ecosystem:** The token is not just for trading. It is the foundation of an integrated system designed to expand in health, wellness, and travel.
- **Security & Transparency:** Smart contracts are built with strict compliance to protect investors and guarantee fair use.
- **Growth Potential:** As more clinics, hospitals, and leisure services integrate LSA, the demand for tokens will naturally increase, ensuring both stability and profitability.

By choosing LSA, investors are not relying on speculation alone they are entering a system designed to generate consistent utility and value, making LSA one of the most stable token investments available.

5. LUISA GROUP'S FUTURE PLANS

Short term (2025-2026)	Mid-term (2026~2028)	Long-term (2027~30)

6. Luisa Group's Business

LSA Stem Cell Medical Center

Stem Cell Medical Center (5 Story)

- 5th Stem Cell educational and training hall for professionals and guests.
- 4th Wellness rooms, recovery lounges
- 3rd Wellness rooms, recovery lounges
- 2nd Stem cell harvesting, treatment laboratory research, and storage.
- 1st Ground Floor: Patient reception, diagnostics, and consultations

The Stem Cell Medical Center will be a modern, five-story medical facility occupying 1,000 square meters of prime space.

Stem cell therapy is a cutting-edge medical advancement known for its regenerative capabilities. It has been widely recognized for the following benefits:

- Anti-aging and rejuvenation
- Improved immune function
- Enhanced recovery from injuries or surgeries
- Management of chronic diseases such as arthritis, diabetes, cardiovascular conditions

With a growing global demand for regenerative medicine, the center is expected to attract both local and international patients seeking high-quality and affordable treatment options.

LUISA Group's Free Stem Cell Treatment Program for the low income family

Luisa Group has a firm commitment to health equity. A portion of all revenue, including token sales and wellness profits, will be allocated to provide free stem cell treatment for low-income families.

This program is the heart of Luisa Group belief that innovation must serve those who need it most.

Monthly treatment slots at LSA Medical Center

Collaboration with barangays, LGUs, and social welfare groups

Transparent reporting of beneficiaries and treatment outcomes

Social impact aligned with United Nations SDG #3: Good Health and Well-being

LSA Wellness Resort

The LSA Wellness Resort is a world-class facility offering advanced stem cell treatments and integrated health services. Currently being developed in Calamba, Laguna, this center will utilize the latest regenerative medicine technologies to provide stem cell therapies for anti-aging, chronic illnesses, and immune system enhancement. Alongside its medical services, the LSA Wellness Resort will feature a stem cell treatment clinic, Korean-style sauna (jjimjilbang), spa, screen golf, K-culture experience center, K-pop performance hall, Korean restaurant, and Korean grocery store. Visitors can enjoy customized health packages that combine treatment and relaxation in a single stay. All services can be booked using LSA Tokens, with discounts of 10– 30%, offering a more affordable and convenient experience for both domestic and international guests.

7. Luisa Group's activities

- **ACT FOR HOPE**

Date: May 22, 2025

ACT FOR HOPE 2025 was a powerful celebration of unity, progress, and shared dreams between the Philippines and Korea. Held on May 22 at The Blue Leaf Events Pavilion in Taguig City, the event was attended by Korean nationals, LUISA Group members, and representatives from the Philippine National Police (PNP). With inspiring speeches, project launches, and distributions, the event highlighted a shared commitment to hope, collaboration, and community development.

- **MOU SIGNING**

Date: May 22, 2025

During the ACT FOR HOPE 2025 event held on May 22 at The Blue Leaf Events Pavilion in Taguig City, the LSA Foundation and TS BIO took a significant step forward by officially signing a Memorandum of Understanding (MOU).

This strategic partnership, signed by LUISA Group Founder Yoshida Koji and TS BIO's Kang Min Ji, focuses on advancing stem cell research, developing regenerative healthcare solutions, and expanding joint markets in Asia and beyond.

The partnership symbolizes a united vision for scientific innovation, shared progress, and global impact.

• **THE 1ST LUISA GROUPS CONFERENCE**

Date: July 9, 2025

Last July 2025, global leaders and visionaries from Korea, Japan, and the Philippines came together for the 1st LUISA Group Future Strategy Conference, a landmark event hosted by LUISA Group. The conference featured inspiring keynote speeches, in-depth discussions on stem cell innovations, the official unveiling of the LSA Wellness Resort project, and the strategic rollout of the LSA Token initiative. It was a powerful display of global collaboration, innovation, and purpose-driven progress toward a healthier, more connected future.
